POLICY: An individual or individuals may possess more than one regulatory permit, provided that they are in compliance with the requirements for each type of permit. For instance, a Family Child Care Home operator may have a license to operate one or more Child Care Centers but may not have a registration for a second Family Child Care Home or a license for a Group Child Care Home 7/30/09.

POLICY: Although regulations for group child care homes do not require criminal background checks for family members, knowledge of a criminal history obtained as a result of fingerprint background checks performed by DSS or information conveyed by law enforcement will prevent continuing operation or the renewal of the license to operate a child care facility in the home. (4/01/08)

POLICY: If the background checks reveal a conviction which would prohibit the owner/director from the operation of a Group Child Care Home, the Group Child Care Home must close and forfeit its license. (1/09/08)

POLICY: A license will not be issued to a new group child care home without a clear fire inspection report (no deficiencies) unless there is an exception that the Fire Marshal has indicated on the report which gives the group child care home approval to occupy. (11/1/06)

2. If no deficiencies, proceed with renewal process.
3. If deficiencies cited, a provisional license may be issued which allows correction of deficiencies within the timeframe stated by the Fire Marshal.
4. Upon receipt of a clear fire inspection report, Regulatory Specialist will request a regular license. (11/1/06)

- (a) Issue a regular license if all the provisions of the regulations and statute for the operation of a group child care home have been met;
- (b) Issue a provisional license with an accompanying correction notice if one or more violations have been cited which do not seriously threaten the health, safety or well-being of children; or
- (c) Deny the issuance of a license if one or more violations seriously threaten the health, safety, or well being of the children.

POLICY: Prior to the original license being issued, there must be at least one staff person who is certified in pediatric first aid/CPR. (1/31/06)

114-512 A. (6) Failure of Department staff, except as provided by statute, to approve or deny any complete application within ninety days shall result in the granting of a provisional license.

POLICY: Staff shall process all paperwork and issue the license within 90 days of receiving the last required paperwork. If processing exceeds 90 days, the license must be issued by default, as per statute. (1/31/06)

114-512 A. (7) If a license is issued, the Department staff shall mail the license directly to the operator.

114-512 A. (8) The license shall state clearly the name of the operator, the address and type of child care facility, the date on which the license was issued and will expire, and the maximum number of children to be present in the group child care home at any one time.

114-512 A. (9) Department staff shall notify the operator as follows if a provisional license is issued or an application for a license is denied:

- (b) If a license is denied, the Department shall give the applicant written notice by certified mail indicating the reason(s) for the denial or

suspension and inform the operator of the right to appeal the decision through administrative channels to the Department and according to established appeals procedure for the Department. Upon appeal, the decision of the Department is final unless appealed by a party pursuant to an Administrative Law Judge.

114-512 A. (10) If a group child care home is found to be in operation after the Department has denied the application for the license and the administrative appeal/review procedure has been completed, the Department shall notify the Department's Office of General Counsel.

114-512 B. Provisions of the license

114-512 B. (1) A regular license issued by the Department to the group child care home shall be valid for two years from date of issuance, unless revoked by the Department or voluntarily surrendered by the operator; provided however, that a change in location, ownership or sponsorship of the group child care home shall automatically void the license.

POLICY: When a child care provider notifies the Office of Child Care Licensing that the facility is closing, a written response should immediately be sent to the provider requesting the return of the permit no later than ten (10) days after the stated date of closure. (1/29/09)

114-512 B. (2) A provisional license issued by the Department to a group child care home shall be issued for a period within which the deficiencies shall be corrected, and within the conditions permitted by statute.

114-512 B. (3) A provisional license shall be amended from a provisional to a regular license when all deficiencies have been verified as corrected.

114-512 B. (4) An application for a license may be denied or the license may be revoked by the Department if the operator and any staff member, volunteer(s) or emergency person(s) has been determined to have abused or neglected any child as defined in Section 63-7-20(2), S.C. Code of Laws, 1976 as amended.

SC Statute 63-13-450.

Deficiency correction notices; private centers and homes.

Whenever the department finds upon inspection that a private childcare center or group childcare home is not complying with any applicable licensing regulations, the department shall notify the operator to correct these deficiencies.

- a. Every correction notice must be in writing and must include a statement of the deficiencies found, the period within which the deficiencies must be corrected and the provision of the subarticle and regulations relied upon. The period must be reasonable and, except when the department finds an emergency dangerous to the health or safety of children, not less than thirty days from the receipt of the notice.**
- b. Within two weeks of receipt of the notice, the operator of the facility may file a written request with the department for administrative reconsideration of the notice or any portion of the notice.**

- c. The department shall grant or deny a written request within seven days of filing and shall notify the operator of the grant or denial.
- d. In the event that the operator of the facility fails to correct deficiencies within the period prescribed, the department may revoke the license.

POLICY: The degree of severity or the type of deficiency will determine the number of times a deficiency should be cited. Before placing repeat deficiencies in the Child Care Licensing system, the Region Supervisor or Central Office should be consulted. (1/29/09)

- 114-512 C. (1) Department staff may visit and inspect a group child care home at anytime during the hours of operation without prior notice to verify regulatory compliance.
